Re: Incident Resolution Notices

Career and  
Protective  
Services

Department of  
Public Safety

Carey Drayton,  
Executive Director  
And Chief

In an effort to communicate better with the campus community about public safety issues, we are pleased to provide the following Incident Resolution Notice.

Notices of this nature detail instances in which DPS and/or LAPD have been able to bring a resolution to reported illegal acts affecting our community members. We look forward to providing you with more updates of this nature.

**Incident:** Catalytic Converter Theft Suspects Arrested  
**Date:** Friday, September 4, 2009 1:00 PM  
**Location:** UPC Parking Structure B

**Description:** On September 4, 2009 at about 1 PM, Juan Carlos Calderon, 28, and Christopher Roy Williams, 36, were arrested by LAPD for the recent series of catalytic converter thefts at USC and surrounding areas.

With assistance from USC DPS and UCLA police, LAPD detectives were led to a common suspect vehicle description, a dark colored 1990's BMW 745.

In the early afternoon of September 4, 2009, officers saw the suspects removing a catalytic converter from a parked car on the USC campus. With the coordinated efforts and outstanding communication between campus officers from USC DPS, UCLA, and several LAPD patrol divisions, Juan Calderon and Williams were arrested. Calderon is being held with no bail and Williams is being held on \$20,000.00 dollars bail.

The two may be responsible for stealing at least 60 catalytic converters from Toyota Tacoma and 4Runner pickup trucks parked in the LA area over the course of the last few months.

Sincerely,

USC Department of Public Safety
