

Chapter 1: General Information

Radiation Emergency Information 1-1

Purpose and Distribution of the Radiation Safety Manual 1-3

Radiation Safety Committee 1-4

Radiation Safety Officer and Staff 1-6

Chapter 2: Authorization to Use Radioactive Material

Authorized Users 2-1

User Definitions 2-1

User Responsibilities 2-3

Absence of Authorized User 2-5

Resignation of Authorized Users 2-6

Permit to Use Radioactive Material 2-7

Training Requirements 2-9

Chapter 3: Procurement and Use of Radioactive Material

Order, Receipt and Transfer of Radioactive Material 3-1

Routine Laboratory Procedures 3-4

Emergency Procedures 3-7

Guidelines For Radiation Surveys 3-10

Survey Methods 3-10

Survey Procedures 3-11

Use of Radioactive Materials in Animals 3-15

Disposal of Radioactive Materials 3-16

Signs and Labels 3-21

Chapter 4: Personnel Dosimetry and Bioassay

Limits of Exposure to Ionizing Radiation	4-1
Personnel Monitoring and Dosimetry	4-2
Bioassay Guidelines for Individuals Working with ^{125}I and ^{131}I	4-6
Guidelines for Individuals Working With Other Radioactive Material	4-9

Chapter 5: Management of Brachytherapy Patients

Introduction	5-1
Radiation Protection Staff Responsibilities	5-1
Radiation Oncology Staff Responsibilities	5-2
Nursing Instructions	5-4
Emergency Procedures for Patients Containing Radioactive Material	5-8

Chapter 6: Management of Patients Receiving Therapeutic Amount of Radionuclides

Introduction	6-1
General Information	6-2
Radiation Protection Staff Responsibilities	6-3
Nuclear Medicine/Radiation Oncology Staff Responsibilities	6-4
Nursing Service Staff Responsibilities	6-7
Emergency Procedures for Patients Containing Radioactive Material	6-12

Chapter 7: General Instruction for Auxiliary Personnel

Instructions For Maintenance Personnel 7-1

Instructions For University Department of Public Safety 7-2

Instructions For Housekeeping Personnel 7-4

Instruction For Pathologists 7-6

Chapter 8: Non-Medical X-Ray Safety

Registration and Approval 8-1

Training 8-2

Protective Equipment 8-3

Safety Procedures 8-5

Appendix A: Glossary

**Appendix B: Acceptable Training and Experience
Guidelines for Medical Uses of Radioactive Material**

Appendix C: Exempt Quantities
